Approximately 150 books have been added as gifts and 415 by purchase. About $60.00 less was available to spend on books and prices have risen which accounts for the smaller number cataloged. No binding was done last year which necessitated a larger amount spent on that this year. Cost of supplies increased, purchases were made in larger quantities to obtain savings and amount spent on this item is double that of last year. If even the present quality and hours of service are to be maintained (and these are below the minimum standards of the American Library Association for towns the size of Enfield) the Librarian and Trustees feel that an additional sum of $400.00 to the present appropriation will be needed. No appropriation has ever been made for the Town Historian and approximaetly $50.00 each year is spent of Library funds for expenses of scrapbooks and other materials added to the Historical collection. Since a large proportion of our books and services are used by the young people in our schools we feel sure townspeople will not wish to curtail them in any way. We wish once more to sincerely thank the members of the Library staff for the efficient and devoted service rendered by them during the past year. It is also a source of great pleasure to us that so many of our local and summer residents remember us so generously with gifts of books and magazines.

The income from two more bequests will become available to the Library this coming year, one from our former Trustee, Mrs. Gertrude Stewart, and one from the wife of a former Trustee, Mrs. Stella Dorothy. This is a wonderful way for these people, who for many years have shown their interest and belief in the value of a Town Library, to continue through the coming years to have a part in its growth and services.

Work done for 1962 consisted of: Painting all the buildings, benches, picnic tables and also enlarging the picnic area.

The entry to the parking lot was improved by widening and extending the culvert. The parking lot was made larger.

The culvert that emptied onto the beach was changed over by the State and the whole area was improved.

Work for 1963, which is recommended by the Commission, is to fence in the parking area and roadway, also to see if we can get some water for the area and shape up the bank in front of the parking area at an approximate cost of $500 from the town.

PUBLIC HEALTH NURSE REPORT

The following is a report of the activities conducted in the town of Enfield by the N. H. Division of Public Health Bureau of Public Health Nursing for the year 1962.

Immunization clinics were held in the town for pre-school and school age children on th following dates: May 14-June 5 for pre-schools and May 14 for school children. At these clinics the following were given:

For Diptheria, Tetanus and Whooping Cough

Age	Series	1st	2nd	3rd	Boosters
Under 1 year		2	1	1	
1-5 years		5	2	6	15
Totals		7	3	7	15

For Diptheria and Tetanus

Age	Boosters		
1-5 years	8	small pox vac.	20
5 years plus	31 (at school clinic)	small pox re- vac.	1

On September 20 and Oct. 31 Sabin Oral Polio vaccine was given. The school children received their vaccine at school, pre-schools and adults attended clinics at the Methodist Vestry. Total number receiving vaccine:

		Pre-school	school age	adults	Totals
Sep[t]. 2	Type I	82	351	229	662
Oct. 31	Type II	65	337	193	595

Type 3 vaccine was held up by the U. S. Public Health Service for further testing. It is expected soon to complete the Type 3 clinics in the town.

September 26 a Tuberculin Sterneedle Testing program was conducted in the school. A total of 94 had this test —

School age tested	79	reactors	2
Adult tested	15	reactors	2

The reactors to the Tuberculin test were advised to follow through with chest x-rays. Members of the families of reactors were also encouraged to have x-rays.

Chest Clinics for large size x-rays were held in Lebanon in April and November by the N. H. Tuberculosis and Health Association, cooperating with the State Department of Public Heauth. Many from Enfield are being followed at these clinics, especially the reactors to the tuberculin tests previously given. Following the clincs, reports are sent to the family physicians named, to the patient attending and to the school nurse for school records. The local physicians, school nurses and individual to return are notified in advance of the clinic and invited to attend and send patients.

In the fall the State x-ray Mobile Unit, under the direction of Mr. Jenson, x-ray survey supervisor of the N. H. Dept. Public Health, was in Enfield. At the industries in the town 290 received free x-rays and 30 adults over 30 years of age x-rayed at the community clinic. The State Public Health nurse follows up on these x-rays readings as necessary to try and encourage the patient to follow-through with family doctor visit or larger x-rays.

My sincerest thanks to the following for their assistance in the "Health" programs for the benefit of the community.

Dr. Henry Brown, giving the immunizations and assistance; Mrs. Shirley Olsen, R. N. School Nurse, for her ex-

cellent help in organization and carrying through on the programs; members of the Enfield P. T. A. for sponsoring and assisting with the school and adult Sabin programs. This made it possible to include these groups in the program: To Mrs. Lois Alger for her professional services freely and kindly given at each clinic; and any other workers assisting at the clinics.

We greatly appreciate the use of the Methodist Church Vestry which is convenient and well located. Thanks also are extended to the stores, mill, paper boys and high school girls, (who made posters) and any others assisting with the publicity. The Enfield Advocate gave good publicity. Thanks to one and all.

REPORT OF ZONING COMMITTEE

At the Annual Town Meeting held in March 1962, a vote was carried to have the Selectmen appoint a committee to bring before the next annual Town Meeting a zoning plan to be acted upon by said meeting.

To be assured of proper procedure and in seeking professional guidance we contacted the N. H. Department of Resources and Economic Development. Director Mary Louise Hancock recommended sending a member of her staff to work with our committee. Mr. Leonard Hubbard met with the committee and promptly advised that he did not believe that we could possibly prepare a properly studied and legal zoning ordinance for the next Town Meeting. Mr. Hubbard urged the committee to utilize the Urban Assistance Program which combines local, state and federal funds to bring expert technical assistance at a reasonable cost. Such a program can only be established with a Town Planning Board, legally appointed through an Annual Town Meeting. We have an article in the Town Meeting Warrant to cover the appointment of a Town Planning Board and strongly recommend the voters to pass the article.

Such a Planning Board should at once contact the N. H. Dept. of Resources and Economic Dev. for assistance in participating in the Urban Assistance Program. Acceptance in this program would result in 2 to 1 matching funds by the federal government, plus state assistance in many ways.

The program would proceed along the following lines. A professional Planning Consultant would be engaged for the Town by the N. H. Dept. of Resources and Econ. Development who would correlate activity on the project. The net result would be Aerial Photography of the town, Base Mapping showing topography and land capability, a survey and analysis of all existing land uses, a report on population characteristics and trends, and an inventory and analysis of the existing street and highway system. Also, a plan for street and highway improvement, a plan for future major land uses, evaluation of

the public water supply in terms of future demands, a report on the need for public sewage and sewage disposal and an evaluation of the desirability of working with the Community Facilities Agency for a sewage study. In addition, evaluation of all exisiting Community facilities would result in a Community Facilities Plan encompassing building requirements, replacements, recommendations, for preservation and improved uses of rivers, ponds and other water bodies as valuable natural assets. Included would be a suitable Zoning Ordinance to be applicable town-wide, together with appropriate maps.

Such information would be used by your Town Planning Board during future years and they could submit to the voters from time to time, any part of the plan for action by the voters. It would provide a valuable guide for Enfield to follow for the future in order to grow and develop along specific lines that it's citizens desired.

The cost of such a plan to Enfield would be approximately $1,000.00. The Federal Government would grant $2,000.00 and the N. H. Dept. of Resources and Eco. Development would furnish many of the maps and plans needed, the cost of which would about equal Enfield's contribution. We have arranged to have an Article in the Town Warrant to allow the voters the opportunity to raise the necessary funds to take part in such a plan.

We are very enthusiastic concerning the program and urgently request support from the citizens of Enfield by voting a Town Planning Board and raising the necessary funds for a Town Plan.

SUPERINTENDENT'S REPORT

The formation of the Mascoma Valley Regional School District is now a reality, and goes a long way toward the solution of many of the problems of educating the young people in Enfield and the other towns in the District. This major accomplishment has been brought about in a fine atmosphere of cooperation among the people of these towns, under the able leadership of their dedicated school board members. We look forward with a great deal of enthusiasm to working with folks in the area in this new situation, and expect that the pupils will take full advantage of their improved opportunities.

Enfield High School has been approved as a comprehensive high school. Changes in the school's program have been made to make this possible. Classes in English, biology and general science have been sectioned to provide proper opportunities for the college bound pupils. A course in shop mathematics has been added to strengthen the program in Industrial Arts. Another teacher was obtained for mathematics and science. Mr. Lovejoy has been relieved of teaching duties and has assumed full time administrative responsibilities.

To relieve some of the load of the elementary teachers the part time teacher assistant has been given full time status. This has been particularly helpful as some classes are too large for effective teaching.

I want to express my thanks to the members of the School Board and the staff at the school for their help during this year, and their understanding of the difficulties which are being encountered in the changes which are taking place locally and in Supervisory Union Number 4. Mr. Pierce has contributed a great deal to make these changes as smooth as possible.

Respectfully submitted,

Edward H. Currier
